Pursuant to preliminary amendment (paper No. 10), claim 1 has been amended. Claims 1-39 remain pending.

A restriction is imposed, as set forth below. First, however, the following subgenera are defined:

**G4:** Xaa<sub>1</sub> is "absent", or a hydrogen atom;

**G5:** Xaa<sub>1</sub> can be whatever the claims permit, provided that G4 is excluded.

\*

Restriction to one of the following inventions is required under 35 U.S.C. §121 (the numbering begins with "IV" to avoid conflict with previous numbers):

IV. Claims 1-24, 26-34, 36 drawn to compounds, limited to G4.

V. Claims 1-34, 36, drawn to compounds, limited to G5.

VI. Claim 35, drawn to a method of treating a patient using the compounds of Group IV.

VII. Claim 35, drawn to a method of treating a patient using the compounds of Group V.

VIII. Claim 37, drawn to a method of isolating a receptor using the compounds of Group IV.

IX. Claim 37, drawn to a method of isolating a receptor using the compounds of Group V.

Claims 38 and 39 are not grouped. In the event that applicants elect Group IV or Group V, claims 38 and 39 will be joined with the elected group.

Inventions {IV-V} and {VI - IX} are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP 806.05(h)). However, in the event that either of Groups IV or V is elected, and claims therein found allowable, the corresponding method of use claims will be joined therewith for further examination.
